Nexans ref.: <u>N423.540N</u>

- Kit of 45x45 back module with Snap-In front module
- Accomodates 2 Snap-In connectors
- Suitable for both copper and fibre
- Installation benefit thanks to angled design
- Colour white (RAL 9010)
- Also available in 1 port version (N423.520)

DESCRIPTION

Application

- The 45x45 angled module can accommodate 2 LANmark Snap-In connectors.
- It is also designed to hold fibre Snap-In adaptors, LC or SC, duplex or simplex.
- For detailed information on Nexans Snap-In connectors, please refer to the corresponding datasheets.

Guarantees

- The plastic material is UL 94V0

Installation

- The Snap-In connectors easily clip in the shuttered front module, which then is mounted into the 45x45 module without the need for any tools.
- Thanks to the angled position of the connectors, the minimum bend radius of the cables is maintained, even in situations where depth is restricted.
- The inclined faceplate also protects the patch cords and prevents dust entry when the shutters are left open.
- The 45x45 angled module fits into a wide range of international frames, surface mount boxes and trunking.

Features:

- Labelling window for easy management and port identification.
- Compatible with all Nexans Snap-In format connectors and adaptors
- Compatible with all Nexans 45x45 structural hardware
- Allows vertical and horizontal mounting in cable ducts
- Side clips can be easily removed if necessary
- Shuttered front module can be inserted in 2 different positions

Prefitted with:

- Labelling window
- Shutters

STANDARDS

International
UL and CSA approval

National UL 94 V0
